Asseggas Ameggaz

HAMSI Boubeker

This image displays a highly detailed and colorful geometric pattern, characteristic of traditional Islamic or Persian art. The design is composed of repeating motifs in a palette of bright red, yellow, orange, and green, all set against a black background. The central focus is a large, complex medallion featuring a red star-like shape within a white circle, surrounded by intricate green and yellow patterns. This central medallion is flanked by two smaller, similar medallions. The background is filled with a dense arrangement of smaller geometric shapes, including triangles, diamonds, and circles, each containing smaller patterns or solid colors. The overall effect is a rich, textured surface with a strong sense of symmetry and balance.
